## Partner with Global Links to give the Breath of Life

For children and seniors living with asthma, COPD, and other respiratory ailments, nebulizers can make all the difference. Imagine struggling to breathe - or watching your child struggle to breathe. Nebulizers bring peace of mind and ease of breath in the midst of respiratory infections and other challenges.

High deductibles and complex insurance processes can make access to nebulizers challenging. This leaves many people trying to find another way to make do. Some may travel to a relative's house to use their nebulizer, while others simply try to go without, resulting in repeat trips to the hospital for emergency care.

At the same time, many people who have nebulizers no longer use or need them. Through Breathe Hope, Global Links collects these nebulizers, tests and sanitizes them, and pairs them with new filters and tubing to be distributed to partners whose clients need them most.

Contact Stacy Bodow at [sbodow@globallinks.org](mailto:sbodow@globallinks.org) for more information.

*Sharing Surplus. Saving Lives.*

## SPONSORSHIP LEVELS:

- \$3,500 = 100 patients served
- \$7,000 = 200 patients served
- \$10,500 = 300 patients served

## IMPACT

For each \$35 donated, one patient can receive a nebulizer or "breathing machine"

## BRANDING OPPORTUNITY

- Your company's name/logo on boxes of nebulizers that we distribute to our Community Partners serving the most vulnerable of our neighbors
- Acknowledgement on our website, social media, and e-news that the distribution was made possible in partnership with [your company's name].

## VOLUNTEER OPPORTUNITY

- Schedule a Custom Corporate Friday tour/volunteer shift to sort/pack rescued medical supplies for up to 15 employees.
