Improve Health for All

For patients in rural areas, the journey to the nearest healthcare center can be a nearly impossible one. Fortunately, patients can safely receive medical attention during home visits thanks to Global Links' Healthcare Backpacks.

Each backpack equips healthcare workers with basic medical supplies such as blood pressure cuffs, gloves, thermometers, first aid kits and more. Whether responding to hurricanes and other natural disasters - or the on-going epidemics of dengue, malaria, and Covid-19, doctors and nurses can provide mobile care to the patients who need care the most.

Sponsorship Levels:

- \$5,000 = 25 backpacks
- \$10,000 = 50 backpacks
- \$20,000 = 100 backpacks

IMPACT:

Each medical backpack can enable a mobile healthcare worker to see about 440 patients a month.

BRANDING OPPORTUNITY:

Your company's name/logo on our website, social media, e-news and print newsletter that the distribution was made possible in partnership with [your company's name].

VOLUNTEER OPPORTUNITY:

Schedule a Custom Corporate Friday tour/volunteer shift for up to 15 employees.
