

Family Volunteer Days

Support Family Engagement

Global Links works to improve health locally and globally, and values people of all ages, abilities, and backgrounds to help us make the world a better place.

Our Family Volunteer Days are the first two Saturdays in December and provide a meaningful way for families with children of all ages and abilities to celebrate the holiday season together. Adults and the special kids in their lives volunteer in a supportive and educational environment and have a profound impact on the lives of those in need.

When children contribute to a better and more just society, they feel good and want to do more. And that is good for everyone.
