The Gift of Healthy Breathing!

Through the Breathe Hope program, we aim to get nebulizers into the hands of individuals most in need. This will allow patients to continue their prescribed breathing treatments to improve health outcomes and reduce the number of return visits to clinics due to respiratory distress.

One of our partner clinics in Virginia shared: ***“What a blessing to be able to give a nebulizer (breathing machine) to deliver much-needed medication to our six-year-old client. Special thanks to Breathe Hope for the work that you do.”***
