

## Domestic Medical Aid

## Improving Local Health and Well Being at Childcare Centers

The Domestic Medical Aid and Operations team at Global Links work closely together to ensure that our local partners have the materials they need to improve health for all. And that can mean organizing events to provide materials to those who need them! In the fall of 2022, Global Links partnered with Trying Together to distribute disinfectant wipes to more than 300 local child care facilities. Trying Together supports high-quality care and education for young children by providing advocacy, community resources, and more. Global Links provided over 2 million disinfectant wipes to help keep children healthy during a time when influenza, respiratory syncytial virus (RSV), and Covid-19 infections were filling emergency rooms across our region and the nation.

This amount of disinfectant wipes equates to 9 months worth of Lysol wipes for nearly all of the childcare /daycare providers in Allegheny County, helping minimize illness and germs in daycare centers throughout the cold and flu season!
