Home Medical Equipment for Age-Friendly Greater Pittsburgh

Home medical equipment donations like manual wheelchairs make a difference in our region. Age-Friendly Greater Pittsburgh is an initiative meant to make our region more inclusive and respectful of all ages - and Global Links will be collaborating with them to equip event spaces with wheelchairs and other assistive devices.

Laura Poski, Executive Director Age-Friendly Greater Pittsburgh shared, "We are so grateful to have Global Links as a partner, both for their donations and for their thought leadership. Over the coming years, we will work together to equip event spaces with wheelchairs and other assistive devices to make it easier to access programming. We want to inspire institutions to anticipate needs rather than make accommodations upon request. That's better for our older neighbors—and better for everyone who wants to get out and enjoy all that our region has to offer."
