Pregnant Women's Clubs (Mom-to-Be Clubs) receive Care Kits

The Pregnant Women's Clubs (Mom-to-Be Clubs) in Honduras serve as a supportive space where expectant mothers receive essential information, guidance, and encouragement throughout their pregnancy. During a learning session, healthcare workers taught a class on breastfeeding techniques, and each participant received a Mom & Baby Care kit provided by Global Links.

Dr. Candida Maria Cruz Diaz also shared in a video, *"Thanks to the donations made to us through Global Links...These kits will benefit pregnant women, so we've put together kits to distribute to them at all our health center clubs. These donations include personal hygiene products for pregnant women, such as baby shampoos, mouthwash, deodorants, and body creams. There are also baby creams for diaper rash, newborn diapers, tissues, and other personal hygiene items for both the mother and the baby."*
